Previous	Short Press “  <h2>2. Pairing to a phone or entertainment device:</h2>
----------	---

- Turn on your phone and ensure its Bluetooth function is activated.
- Turn on the Bluetooth speaker and go to pairing mode.
- Search for Bluetooth devices on your phone by following the phone's instructions. Refer to your phone's user manual for more information.
- After a few seconds, the phone will list the device as a “discover device”.
- Select it and follow your phone instruction to select this pairing.
- Your phone will confirm the pairing, and then press Yes/Ok.
- Finally, select “connect with device” from your phone.

## 3. Line in input

SP-920BT / SP-925BT use a 3.5mm audio jack line in for recharging when the battery is low. You just connect it to a notebook/PC to recharge. The Bluetooth function will be in stand-by mode when the line-in jack is connected to a USB port and returns to the Bluetooth function when the jack is removed.
